The Genetics of Cholestasis: Practical Approaches to Test Interpretation and Family Screening

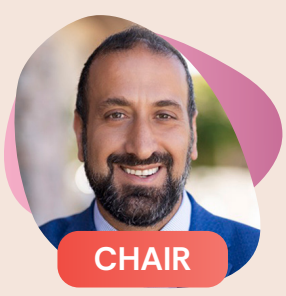

IPSEN

This webinar will provide insights into:

- The spectrum of clinical phenotypes associated with PFIC- and ALGS-related gene variants in both pediatric and adult patients.
- Key considerations surrounding the use of genetic testing in patients with cholestatic liver disease.
- Approaches to interpreting genetic testing results and understanding their clinical relevance.
- The potential role of genetic findings in supporting the diagnostic evaluation of cholestatic liver diseases.

Featured Faculty

CHAIR

Naim Alkhouri, MD
Summit Clinical Research,
Clinical Research Institute of Ohio
Westlake, Ohio

Edwin (Clay) Ferren, MD
Atrium Health Levine
Children's Genetics
Charlotte, North Carolina

Amber Hildreth, DO
Rady Children's Hospital,
The University of California San Diego
San Diego, California

Tatyana Kushner, MD, MSCE
Weill Cornell Medicine
New York, New York

Fabian Rodas, MD
UT Health San Antonio
San Antonio, Texas

James Squires, MD
University of Pittsburgh
Pittsburgh, Pennsylvania
